### on High School Student's Presentation and Cultural Discussion in English

Jishukan High School has been designated as SGH (Super Global High School). We have two sister schools in England and one in Germany, and we are expanding our partnership with the three schools into the project called "SGH Overseas Study Program." Now 27 students are trying to conduct their own research on Japanese culture and history from global perspectives. They will soon finish their research and will have a presentation session on December 16<sup>th</sup>.

We would like you to join our session and listen to their poster presentation. They are looking forward to being listened to, and being given questions and advices by as many people as possible. What is more, they will have discussion in English on a global, cultural topic.

We are looking for 10 English speakers who would be interested in helping our students. Additionally, we hope that it will be a good chance for all involved to have this fruitful, cross-cultural experience.
