The participants are expected to discuss the results with participants in English, so they must learn how to enjoy talks in English!

We are looking for English speakers who would be interested in helping our students use English as an effective tool for communication. Additionally, we hope this will be a good chance for all involved to have a fruitful cross-cultural experience.

■ Time & Place:

■ Eligibility:

You must be from another country and must speak English. (You don't have to be a native speaker of English.)

■ Kind of activities:

You will have 25-minute conversations in a small group with the students (approx. 3 students in each group). There will be 4 conversation sessions in total. Every 25 minutes the members will switch. You can talk about any topic as long as it is all done in English.

We predict these sessions will be a bit of a struggle for our students, but we believe this kind of activity will be an effective and enjoyable way to get them excited about learning English. You can share your country, culture, language, history, personal belongings, hobbies, family, etc. (If you bring something related, the talk will be fulfilling.) We would like to encourage all participants involved to make this as fun and exciting as possible!
