

Report from Short-term Visiting International Student

Nationality: Italy

Department: Electrical and Electronic Information Engineering

Period: October 2019 – November 2019

What motivated you to study at TUT?
Japan is a personal challenge, even if is very different from my country, I came here to grow up as person as on professional level, and I'm glad to have succeed in it.
What kind of studies and research did you do at TUT? How much progress?
I participated to a short term project of only 2 months. Concerning silicon photonics. The research group and the professor were extremely kind and they welcomed me in a very warm way
Fun memories at TUT
I enjoyed the company of the others foreigners. We spent really good time together having party and watching rugby matches.
Message to future visiting students
Brace yourself, but don't worry too much. Japan is very safe and nice place to stay and to grow up 😊
