

Report from Short-term Visiting International Students

Nationality: Mongol

Department: Applied Chemistry and Life Science

Period: February 2020 – July 2020

What motivated you to study at TUT?
Collaboration between our school and TUT. TUT's professors, academic and research environment.
What kind of studies and research did you do at TUT? How much progress?
I did organic synthesis research at TUT. The research results were good and successful.
Fun memories at TUT
TUT's food was delicious. Sometimes the food ran out easily, leading to new choices.
Message to future visiting students
I wish you to have fun and good luck
